Pergola awning  
*Pergola markiser*

## All-weather protection with glass roof

Miranda-Vetro P7000 pergola awning is a flexible, extendible weather protection system. A stable aluminium construction with integral laminated safety glass and proven textile shading technology, the **Miranda-Vetro P7000** provides year-round protection against sun, rain and snow.

If the characteristics of the installation location require, the cross-beam gutter can be enhanced by a further horizontal beam offset inwards.

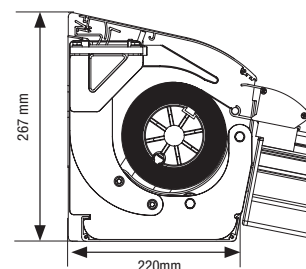

The state-of-the-art electric drive motor can easily be fitted with optional sensors for sun, wind and rain.

Other accessories, including vertical shading, radio control and halogen lighting, are also available.

## Beskyttelse i allslags vær med glass tak

*Miranda-Vetro P7000 pergola markise er en fleksibel, utvidbar vær beskyttende system. En stabil aluminiums konstruksjon med intergrert laminert sikkerhetsglass og utprøvd tekstil solskjermings teknikk. Miranda-Vetro P7000 er en året rundt løsning som gi deg beskyttelse mot sol, regn og snø. Hvis det kreves kan takrennen forbedres med takrenne som går horisontalt innover.*

*Den moderne elektriske motoren kan lett monteres med valgfrie sensorer for sol, vind og regn. Andre valgmuligheter, inkluderer vertikal solskjerming, radio kontroll og halogen lys er også tilgjengelig.*
